VEMO

ELECTRONIC PARTS BY VIEROL

VEMO is the quality brand for high-quality electronic automotive replacement parts. With more than 15,000 VEMO replacement parts, we cover numerous models from European, American and Asian vehicle brands.

We are particularly proud of our range of sensors and switches:

VEMO offers more than 4,000 different replacement parts such as parking sensors, sensors for crankshafts and camshafts, air flow meters, steering column switches, thermal switches and much more. Whether for sensors, switches, small engines, replacement parts for exhaust gas recirculation or products for vehicle inspections – VEMO offers the best quality. We are therefore the perfect alternative to the original part manufacturers.

We offer smart repair kits in the EXPERT KITS+ section – from practitioner to practitioner – thus also helping you to save time. The Q+ seal identifies replacement parts with OEM quality, just like those made by the original equipment manufacturers.

15 experts work every day to expand the range constantly, and to ensure continuous quality improvements for the VEMO products. Clients from numerous countries already trust us – time for you to get to know us too!

CONTROL UNITS AND LIGHTING

Xenon lamps have become standard in most manufacturers' modern vehicles. They provide a bright light and thus contribute to increased safety. The energy consumption is low.

Xenon lighting is also subject to the ECE standard and is subject to different types such as D1S, D3s or D4S. The letter D stands for the English term Discharge. The number stands for the version and for the light density.

A control unit is required for installation. The control unit is an important and indispensable part of the lighting system. The lights work with xenon gas. This is ignited. The control unit has the task of firing the light beam. As a consequence, the xenon lamp is immediately ready for use. If you want to use the xenon light in your vehicle after a defect, you also need a headlight control unit. This is necessary to ensure that the light functions properly.

POOR VIEW? NOT WITH VEMO LAMP KITS!

EXPERT KITS+

The advantages of our EXPERT KITS+

- › Including control unit and mounting material
- › Quick and easy repair
- › Perfect solution for the workshop

Tipp: Always replace bulbs in pairs!
