VEMO

ELECTRONIC PARTS BY VIEROL

VEMO is the quality brand for high-quality electronic automotive replacement parts. With more than 15,000 VEMO replacement parts, we cover numerous models from European, American and Asian vehicle brands.

We are particularly proud of our range of sensors and switches:

VEMO offers more than 4,000 different replacement parts such as parking sensors, sensors for crankshafts and camshafts, air flow meters, steering column switches, thermal switches and much more. Whether for sensors, switches, small engines, replacement parts for exhaust gas recirculation or products for vehicle inspections – VEMO offers the best quality. We are therefore the perfect alternative to the original part manufacturers.

We offer smart repair kits in the EXPERT KITS+ section – from practitioner to practitioner – thus also helping you to save time. The Q+ seal identifies replacement parts with OEM quality, just like those made by the original equipment manufacturers.

15 experts work every day to expand the range constantly, and to ensure continuous quality improvements for the VEMO products. Clients from numerous countries already trust us – time for you to get to know us too!

THROTTLE BODY

The throttle body is an important part of a vehicle's engine system, responsible for regulating the flow of air into the engine. The VEMO brand offers high-quality throttle bodies that have been specially developed for use in various types of vehicles.

VEMO throttle bodies are characterised by their reliability and durability. They are made of high-quality materials and are manufactured under strict quality controls to ensure optimum performance. In addition, they are easy to install and offer a perfect fit for various vehicle models.

VEMO offers throttle bodies for a wide range of vehicle types, including cars and vans. They are equipped with various functions and features to meet the requirements of different vehicle models. Most VEMO throttle bodies are equipped with an electronic control unit that regulates the air supply to the engine, optimising performance and fuel consumption.

VEMO offers throttle bodies for a wide range of vehicle types, including cars and vans. They are equipped with various functions and features to meet the requirements of different vehicle models. Most VEMO throttle bodies are equipped with an electronic control unit that regulates the air supply to the engine, optimising performance and fuel consumption.
