# VAICO

ENGINE & TRANSMISSION PARTS  
BY VIEROL

The VAICO quality brand stands for high-quality automotive parts. Our focus is therefore on the heart of the car: the engine and the transmission.

As a specialist in the independent parts market, and one that is known worldwide, we offer an extensive range of products, from suction modules to venting hoses and cylinder head covers. We cover more than 13,000 different vehicle models.

Our VAICO parts even cover 95 per cent of the German vehicle market. Whether transmission filters and sets, oil pans, or housing – VAICO offers the best quality products. Suitable transmission oil is also available, in addition to engine oil, antifreeze or additives.

Our range has been bolstered by innovative repair sets from the Expert Kits+ selection. These kits include sets for changing oil, repair kits with hoses and venting valves or transverse control sets. The Q+ seal identifies parts with OEM quality, just like those made by the original equipment manufacturers.

Our competent expert team works everyday to optimise our VAICO automotive parts and to extend our range. Our aim is to have satisfied customers all around the world.

## TRANSMISSION FILTER KITS

The best transmission oil is eventually “exhausted” in terms of performance. The result: there is increased material wear inside the gearbox. Even so-called “Lifetime Oils” are not exempt from this problem. In order to prevent damage to the transmission and its control unit, we advise changing gearbox oil and replacing the filter set at regular intervals. Depending on the vehicle, this is within a period of five to six years or 60,000 to 100,000 kilometres mileage.

The performance of the transmission can be significantly improved by changing the oil, cleaning or flushing the control unit and replacing the hydraulic filter: It shifts noticeably smoother, faster and cleaner again.

With more than 700 different hydraulic filters and hydraulic filter sets – tested according to German quality standards – the VAICO quality brand offers an extensive product programme. A matching ATF range „Made in Germany” is also available.

VAICO offers an comprehensive range of automatic transmission components with over 700 products for more than 10,000 vehicle models. This means that 95 % of vehicles on the German market can be covered.

Especially with complete solutions in the „EXPERT KITS+” category, VAICO supplies a comprehensive oil change kit including all necessary components such as the appropriate oil quantity, oil pan with spin-on filter, gasket, oil drain plug and matching screw set and plug-in housing. The spin-on filter system for plastic transmission oil pans enables the individual transmission filter to be replaced at low cost.

The lubricants contained in the oil change kit are MADE IN GERMANY and offer perfect protection for the engine and transmission. Initial raffinates and a customised innovative additive guarantee compliance with today’s practical requirements. VAICO products are characterised by very good lubricating properties at high and low temperatures, as well as extreme wear protection under all operating conditions.

# LUBRICANTS

## WITH MANUFACTURER APPROVAL

The VAICO quality brand supplies chemical materials in accordance with the original approvals and selected products with original manufacturer approvals\*\* and offers good value and high quality alternatives to OEM products for all common European brands

\*\* Applies only to selected oils.

## EXPERT KITS+ XXL

Automatic transmission flushing with more oil

### Example V30-4427-XXL consists of:

Suitable quantity of transmission oil

incl. additional oil  
for a flush

Guide and fill  
level tube

Filling  
adapter

Drain plug

Converter  
drain plug

Oil pan  
screws

Oil pan incl.  
filter and seal

### TRANSMISSION FILTER KITS IN AN ENVIRONMENTALLY FRIENDLY COMBINATION!

VAICO transmission oil change kits are not only developed for first-class performance, but also with a clear focus on efficiency and sustainability. By reducing the number of oil containers, less plastic waste is produced, which not only protects the environment, but also saves even more time during handling.

In addition, the oil containers are made from recycled material, which further minimises the use of plastic.

## EXPERT KITS+

Automatic transmission oil change

### Example V30-4427 consists of:

With oil pan gasket, screws, sealing ring, oil quantity for standard oil change and accessories

## EXPERT KITS+ BEK

Kit version without oil (e.g. if already available in bulk containers in the workshop)

### Example V30-4427-BEK consists of:

With oil pan gasket, screws, sealing ring and accessories

## EXPERT KITS+ SP

Kit version with „special“ requirement (with less oil for vehicles without torque converter drain plug)

### Example V30-2254-SP consists of:

with sealing ring, seal, oil quantity for standard oil change and accessories

MANY OF OUR ARTICLES ARE AVAILABLE  
AS -BEK, -XXL OR -SP KITS.

# TRANSMISSION FLUSH

The service that pays!

LESS FUEL CONSUMPTION

LONGER SERVICE LIFE

COMFORTABLE SHIFTING

# TRANSMISSION FLUSHING UNIT VAICO ATF EXPERT GEAR PLUS

22101 | 29001

The transmission oil within an automatic gearbox should be completely replaced at regular intervals, otherwise the proper functioning of the gearbox can no longer be guaranteed.

The VAICO transmission flushing unit can flush the transmission, torque converter and radiator or carry out a complete oil change within a short time. The oil change rate is almost 100%.

Automatic identification of the flow direction of the transmission oil

Various adapters for the most common vehicle types\* from Europe, America and Asia

LCD Touch Display with user-friendly operation

Compared to manual gear oil changes, where residues of the contaminated gear oil remain in its circuit, a complete and professional change of the entire gear oil is possible.

Automatic periodic cleaning of the automatic transmission

Power supply	AC 110 V/60 Hz & AC 240 V/50 Hz
max. power	150 W
manometer	0 – 200 psi
filter accuracy	5 µm
internal oil tanks	2x 25 litres
exchange accuracy	±80ml
Ø exchange speed	2 litres/min
noise level	<65 db
gross weight	78 kg
dimensions	500 x 600 x 1180 mm

X-Ref universal

**V99-1039**

## SUITABLE SPARE OIL FILTER

X-Ref V991068\*

**V99-1068**

\*other special adapters are available on request

# TRANSMISSION FLUSHING UNIT VAICO ATF EXPERT GEAR PRO

22101 | 29001

**Next level automatic transmission service - the VAICO ATF EXPERT GEAR PRO. Transmission flushing unit with integrated web database and user-friendly touchscreen display.**

## CLEAR ADVANTAGES:

- › Fully automatic transmission flushing unit
- › Touch display with user-friendly operation
- › Graphical database with practical instructions and illustrations
- › Guided and automated maintenance processes
- › With tablet for wireless monitoring of processes
- › Automatic identification of the direction of flow of the transmission oil
- › Pressure & temperature detection transmission output & radiator output
- › Automatic filling level procedure and oil level monitoring
- › Creation of maintenance reports and quotations
- › Technical support, continuous updates and remote maintenance
- › Comprehensive adapter set for modern automatic transmissions from various vehicle manufacturers

## INCLUDING ADAPTER CASE

Included in delivery: 40 adapters suitable for DSG, 8HP, Powershift and many other modern transmissions.

Power supply	230 V/50 Hz
max. pressure	16 bar
max. capacity	14 l/min
Load cells	2x 50 kg
Internal oil tanks	2x 20 litres
Gross weight	70 kg
Dimensions	550 x 480 x 1130 mm

X-Ref universal

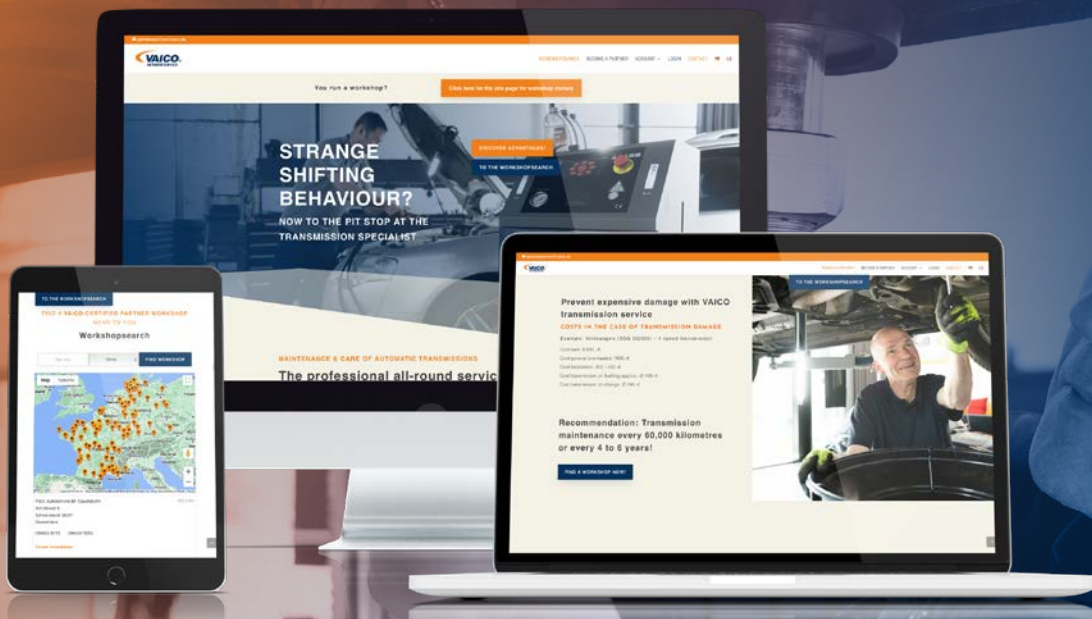

**V99-0027**
