# VAICO

ENGINE & TRANSMISSION PARTS  
BY VIEROL

The VAICO quality brand stands for high-quality automotive parts. Our focus is therefore on the heart of the car: the engine and the transmission.

As a specialist in the independent parts market, and one that is known worldwide, we offer an extensive range of products, from suction modules to venting hoses and cylinder head covers. We cover more than 13,000 different vehicle models.

Our VAICO parts even cover 95 per cent of the German vehicle market. Whether transmission filters and sets, oil pans, or housing – VAICO offers the best quality products. Suitable transmission oil is also available, in addition to engine oil, antifreeze or additives.

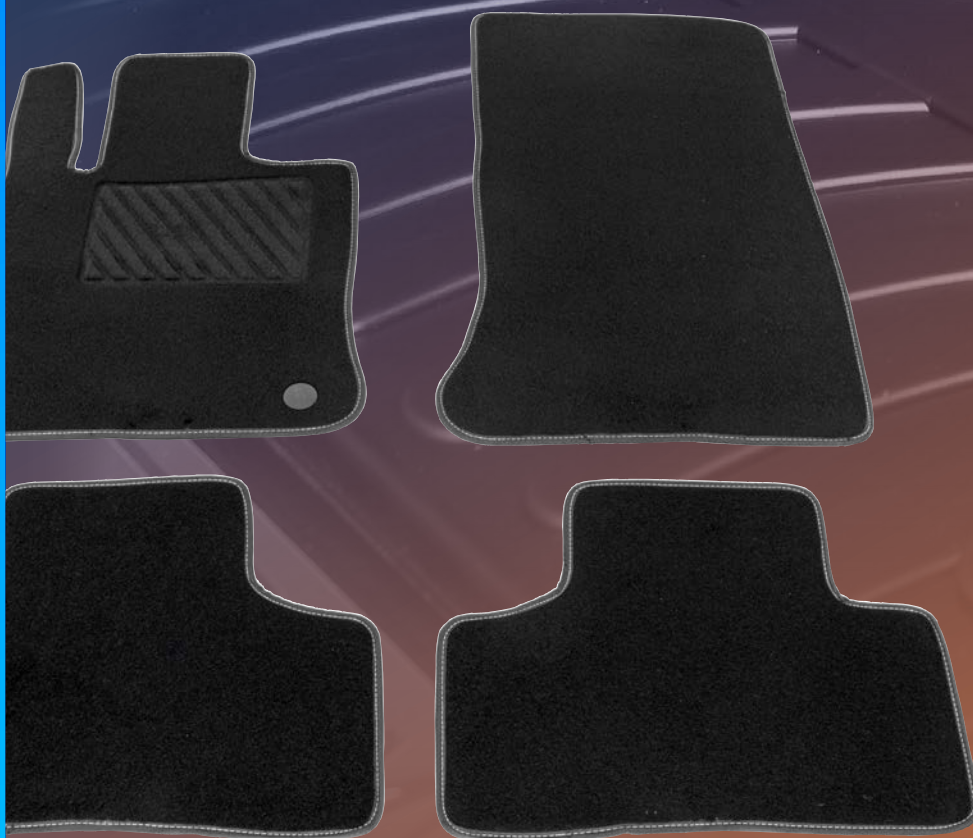

Our range has been bolstered by innovative repair sets from the Expert Kits+ selection. These kits include sets for changing oil, repair kits with hoses and venting valves or transverse control sets. The Q+ seal identifies parts with OEM quality, just like those made by the original equipment manufacturers.

Our competent expert team works everyday to optimise our VAICO automotive parts and to extend our range. Our aim is to have satisfied customers all around the world.

## CAR MATS AND TRUNK MATS

Replacing your car floor mats not only enhances the interior of your car, but also protects the original interior of your vehicle. Car mats provide effective protection against wear, moisture and dirt, which is particularly important during long periods of bad weather. Repeatedly entering the vehicle with wet or dirty shoes can have a lasting effect on the interior.

Without suitable mats, moisture and dirt can penetrate unhindered, which can even lead to permanent discolouration. A high accumulation of moisture in the car can quickly spread under the vehicle and increase the risk of rust. With this in mind, VAICO offers an extensive range of top quality car mats and car trunk mats to ensure this protection. A new car floor mat therefore not only serves as a decorative element in the interior, but also fulfils an important functional purpose. In addition, loose mats are extremely practical as they can be easily removed and cleaned.
